MASON INDUSTRIES

SEISMIC MOUNTS, SNUBBERS and SWAY BRACE SYSTEMS

For over 50 years we have developed excellent seismic restraints, vibration isolators, and flexible connectors. Our seismic restraint systems have survived numerous devastating earthquakes without a single failure. You can count on Mason to protect lives, and keep equipment securely attached to the structure without interfering with vibration and noise control. People work with our company because of our ability to engineer and complete entire systems the first time.
